MEETINGS: 2nd and 4th. Fridays of each Month.
United Christian Missions Bldg.
222 S. Downey Ave.

Newsletter #2
February 1976

NEXT MEETING: February 13th. at 8:00 P. M. DIRECTION FINDING, as applied to 2 meter antennas and techniques. To be presented by Paul Bohrer, If this program is similar to the November '75 presentation by Paul, we are in for another fine evening of technical information and know-how. Weather permitting we are expecting a delegation from the Anderson, Ind club to be present. Refreshments served after the meeting. C. U there.

PROGRAM REVIEW: January 23rd. TORNADOS, as presented by Gary Hughes K9LNX. Gary presented a variety of still pictures of Tornados, their size shape, and speed of travel and the various colors they assume. Besides their destructive force to buildings etc. there is great danger of being injured or killed by the objects they pick up and hurl outward at tremendous speeds. Gary gave some personnel accounts of a situation he was in the aftermath of a storm. Followed by an excellent movie of preparation for, and surviving through a storm. TNX Gary for a very fine program.

IRC SHIRTS : We are hoping to have ready in the next month, a layout for an emblem to be worn on your shirt or jacket to hamfests or meetings. Alvey Pittman is the designer and will come up with an excellent and unusual design, that will stand out in any crowd. We hope to have this project completed by the Dayton Hamfest in late April. Further info on this project by this newsletter or at meetings.

LIFE MEMBERSHIP: The IRC Life membership has gotten off to a great start. The first meeting that this membership was offered, there were 6 that renewed their membership for life. Think about the advantages, that a life membership has to offer and ACT. Your treasurer is still accepting dues at meetings and by mail, Remember March 1st. is the deadline of paying.

HOSPITAL REPORT John Mayfield was in Winona for about a week and a half, and is now back in circulation. Bart Besinger was in the hosp. for about a week for tests, and is now home and doing fine. We hope to see both of you at the coming meetings.

ARRL has undertaken a plan to help increase the amateur population by 50% by 1979. This is quite an undertaking and ARRL will be asking for help from all affiliated clubs. So you might think as how you can help in this project. There have been excellent courses offered by the RED CROSS and other clubs. So spread the word to the potential newcomers.
